CHARTER SCHOOLS

Note: This exhibit may be used as an administrative regulation by a County Office of Education. This exhibit is based on provisions of Education Code 47605, 47605.5, and 47605.6 which lay out the requirements for a petition to be eligible for consideration by the County Board and the required provisions of a proposed charter.

Petition Signatures

To be considered by the County Board of Education, a charter school petition must be signed by one of the following: (Education Code 47605, 47605.5, 47605.6)

1. A number of parents/guardians equivalent to at least one-half of the number of students that the charter school estimates will enroll in the school for its first year of operation
2. A number of teachers equivalent to at least one-half of the number of teachers that the charter school estimates will be employed at the school during its first year of operation

Note: Education Code 47605.6 prohibits the conversion of an existing public school to a countywide charter school; see accompanying Board policy.

3. When the charter petition calls for an existing public school to be converted to a charter school, at least 50 percent of the permanent status teachers currently employed at the public school to be converted

In circulating the petition, the petitioners shall include a prominent statement explaining that a signature means that the parent/guardian is meaningfully interested in having his/her child attend the charter school or, in the case of a teacher's signature, that the teacher is meaningfully interested in teaching at the charter school. The proposed charter shall be attached to the petition. (Education Code 47605, 47605.6)

If the petition is for a countywide charter pursuant to Education Code 47605.6, each school district where the charter school proposes to operate a facility must have received at least 30 days notice of the petitioners' intent to operate the charter school. (Education Code 47605.6)

Charter Provisions

All charter petitions shall contain the following provisions: (Education Code 47605, 47605.6, 47611.5)

CHARTER SCHOOLS (continued)

1. The educational program of the school, designed among other things, to identify those whom the school is attempting to educate, what it means to be an "educated person" in the 21st century, and how learning best occurs. The goals identified in that program shall include the objective of enabling students to become self-motivated, competent and lifelong learners.
2. The measurable student outcomes identified for use by the charter school. "Student outcomes" means the extent to which all students of the school demonstrate that they have attained the skills, knowledge, and attitudes specified as goals in the school's educational program.
3. The method by which student progress in meeting those student outcomes is to be measured.
4. The governance structure of the school, including but not limited to the process to be followed by the school to ensure parent/guardian involvement.
5. The qualifications to be met by individuals to be employed by the school.
6. The procedures that the school will follow to ensure the health and safety of students and staff. These procedures shall include the requirement that each school employee furnish the school with a criminal record summary as described in Education Code 44237.
7. The means by which the school will achieve a racial and ethnic balance among its students that is reflective of the general population residing within the district's territorial jurisdiction.
8. The manner in which annual, independent financial audits shall be conducted, which shall employ generally accepted accounting principles, and the manner in which audit exceptions and deficiencies shall be resolved to the satisfaction of the County Board.
9. The procedures by which students can be suspended or expelled.
10. The manner by which staff members of the charter schools will be covered by the State Teachers' Retirement System, the Public Employees' Retirement System, or federal social security.
11. The procedures to be followed by the charter school and the County Board to resolve disputes relating to charter provisions.

CHARTER SCHOOLS (continued)

Note: Education Code 47605 and 47605.6 require charter petitions to include the declaration specified in item #12 below regarding responsibilities for collective bargaining. Pursuant to Education Code 47611.5, where a charter petition that was previously denied by a school district governing board does not contain a declaration regarding whether or not the charter school shall be deemed the exclusive school employer of employees at the charter school, the district where the charter is located shall be deemed the public school employer for purposes of collective bargaining under Government Code 3540-3549.3. In those situations where the charter school is not located in the granting district or county and the charter does not declare the charter school the exclusive employer, it is recommended that legal counsel be consulted in interpreting this provision.

12. A declaration as to whether or not the charter school shall be deemed the exclusive public school employer of the school's employees for purposes of collective bargaining under Government Code 3540-3549.3.

Any countywide charter petition shall specify the location of each charter school facility that the petitioner proposes to operate. (Education Code 47605.6)

Note: Education Code 47605 requires charter petitions, except petitions for countywide charters, to contain the following provisions. Though not required for countywide charters, the County Board may require countywide charter petitions to contain these provisions pursuant to Education Code 47605.6(b) which gives County Boards authority to establish additional requirements. County Boards that wish to use these provisions as additional requirements for countywide charters should modify the language to include countywide charters.

Except for countywide charter petitions, all charter petitions shall also include the following provisions: (Education Code 47605)

1. Admission requirements if applicable.
2. The public school attendance alternatives for students residing within the district or for which the County Office of Education is responsible for providing education and related services, who choose not to attend the charter school.
3. A description of the rights of any district or County Office employee, as applicable upon leaving district or County Office employment to work in the charter school, and of any rights of return to the district or County Office after employment at the charter school.
4. The procedures to be used if the charter school closes. The procedures shall ensure a final audit of the charter school to determine the disposition of all assets and liabilities of the school, including plans for disposing of any net assets and for the maintenance and transfer of student records.

Requirements for Charter Schools

All charter petitions shall meet applicable legal requirements. Each charter school shall:

(Education Code 47605, 47605.6)
 - b. If the number of students who wish to attend the charter school exceeds the school’s capacity, attendance, except for existing students of the school, shall be determined by a public random drawing. Preference shall be extended to students currently attending the charter school and students who reside in the county except as provided for in Education Code 47614.5. In the event of a drawing, the County Board shall make reasonable efforts to accommodate the growth of the charter school and shall not take any action to impede the charter school from expanding enrollment to meet student demand. (Education Code 47605, 47605.6)

Schools also may not retain in employment any temporary, substitute or probationary employee who has been convicted of a violent or serious felony.

Education Code 51745 requires that no course included among the courses required for graduation may be offered solely through independent study. However, pursuant to 5 CCR 11705, a charter school offering grades 9-12 shall be deemed to be an “alternative school” for purposes of independent study and thus, according to the CDE, would comply with this provision because students in such alternative schools are enrolled voluntarily and, if they wished, could attend any other high school in which the courses were offered via classroom instruction.

16. Meet the requirements of Education Code 51745-51749.3 if it provides independent study, except that it may be allowed to offer courses required for graduation solely through independent study as an exception to Education Code 51745(e) (Education Code 47612.5, 51747.3; 5 CCR 11705)
