MISSION & GOALS STATEMENT

WHAT IS THE CORE MISSION OF THE COUNTY SUPERINTENDENTS?

California’s 58 County Superintendents of Schools and their respective County Offices of Education support the financial and academic soundness of every district and school in the state. County Superintendents work collaboratively with school districts to ensure that every student benefits from a quality educational experience, regardless of their circumstances, including students with disabilities, juvenile offenders, students at risk of dropping out or who thrive in alternative classroom settings, or students in high-priority schools. County Superintendents strive to ensure that every student in every community achieves and is prepared to learn continuously throughout life, to successfully enter the workforce, and to be active citizens.
In 1976, Proposition 8 was approved by the electorate and made the following constitutional changes:

» Authorized county boards of education, instead of the Legislature, to set the salaries of county superintendents;

» Empowered the voters of each county to determine whether the county superintendent should be elected or appointed; and

» Empowered the voters of two or more counties to create joint superintendencies and joint county boards.

Elections were required in each “general law” county, to determine whether the county superintendent should be elected or appointed. (In “charter” counties, the county charter may provide for the election or appointment of county officials.) The elections were held in 1977 and 1978. In all cases, voters opted for elected county superintendents. Consequently, fifty-three (53) of the 58 County Superintendents are locally elected officials. In four charter counties, the county superintendent is appointed by the county board of education (Sacramento, San Diego, San Francisco and Santa Clara). In Los Angeles, the county board of supervisors appoints the county superintendent of schools. All county superintendents, whether elected or appointed, are required to hold a California administrative services credential.

CURRENT AUTHORITY AND RESPONSIBILITIES

County Superintendents operate intermediate service agencies providing direct and regional support to school districts and serve as the primary implementation arm of the California Department of Education (CDE). Current responsibilities can be described in the following categories:

» Educating specific student populations;

» Monitoring and overseeing the student academic environment;

» Monitoring and overseeing district fiscal stability;

» Providing academic support and assistance;

» Providing direct services to small school districts; and

» Implementing regional support activities to assist district and school staffs.
